For Immediate Release

CLOSURE COMING TO SOUTH 4TH STREET FOR SUBSTATION WORK

South 4th Street, from Smith Street to 'Q' Street will be closed to all vehicular and pedestrian traffic starting on Wednesday, September 13th and lasting until early November.

This work is a necessary component of Westar Energy's new Amelia Earhart Substation Project. Closing the street will allow workers to safely construct a connection from the new substation on the west side of 4th Street with the existing LFM (Bradken) Substation on the East side of 4th Street.

The City recommends using 5th Street as an alternate route during the closure.

###

Note: Questions regarding the street closure can be addressed to Justin Pregont with the City of Atchison. Questions about the Westar Energy Amelia Earhart Substation Project should be directed to Ed Broxterman at the contact information below.
