For Immediate Release

WATER TOWER MAINTENANCE STARTING NEXT WEEK

Atchison – Beginning Monday, October 9th and ending around Saturday, October 14th, McGuire Iron, a water tower maintenance company working in collaboration with the City of Atchison, will be performing a series of operational, safety, and sanitation upgrades to the City of Atchison's 4th & M water tower. This type of work is normal, necessary, and planned. The tower helps balance the pressures in the immediate area around the tower.

During the working period, our water customers may notice some abnormal pressure at their homes and businesses in the general area of the tower. The area impacted is roughly bounded by the Missouri River to the east, Walnut Street to the west, the City limits to the north, and Parallel Street to the south.

Every precaution is being taken so that the tower will only be out of service for a minimal amount of time.

If customers notice anything of a significant nature, or if you have any questions, please contact the Public Works Shop at 913-367-5561.
